

STUDENT SATISFACTION SURVEY

Student Satisfaction Survey is conducted successfully every year and actions are taken as per the feedback received. Following are the major findings

- All the students of all courses agree that the complete syllabus is covered in each semester.
- Students of all the courses agree that the teachers are well prepared for the class and have good command on the subject matter.
- Students also agreed that the teachers have effective communication skill required for the transfer of knowledge.
- Most of the students agreed that teaching pedagogy is supported by relevant examples and application aspect related with every topic.
- About three fourths of the students feel that teachers are fair in the internal assessment.
- All of them agreed that most of the faculties give feedback of performance in tests and assignments.
- About three fourths of the students feel that the teachers identify the individual strength and weakness of majority of students and encourage them.
- They also agreed that teachers provide close mentorship to students.
- They acknowledged that they are encouraged to participate in extracurricular activities.
- They do realize that the institute takes active interest in promoting internships and field trips opportunities for students.
- Maximum number of students opine that the use of experiential learning and participative learning and problem solving methods help them gain better understanding of the real life problems.
