MESSAGE

I am indeed happy to learn that the School of Management Sciences (SMS), Lucknow is organizing the 5th International Seminar on Sources of Planet Energy, Environmental & Disaster Science (SPEEDS-2019): Impact of Non-Conventional Energy Resources, on 07th and 08th Feb.' 2020 in association with Dr. A.P.J. Abdul Kalam Technical University, Uttar Pradesh, Lucknow, The Institution of Engineers (I), UP State Centre, Lucknow, India & Council of Science and Technology, U.P., Lucknow.

We are aware that the preservation of earth and environment is highly essential for life. The development of **Non-Conventional Energy Resources** is extremely important in the current situation especially in India which is a developing country. Now at this time we need to create an awareness among the masses on how to overcome the fast depleting resources by utilizing other sources of Energy, in order to deal with issues of deforestation, increasing temperature, rising sea levels and sinking ground water levels besides other natural calamities which may bring troubles in due courses of time. It is needed to give a deep thought on development at the cost of nature.

I extend my best wishes on the occasion.

January 25, 2020
