*"97 Years of Relentless Journey Towards  
Engineering Advancement for Nation Building"*

Dated : 28-10-2016

## MESSAGE

I am delighted to send our message on the occasion of the All India Seminar dealing with **"Sources of Planet Energy, Environment and Disaster Science (SPEEDS-2016): Challenges and Strategies**, organised by **School of Management Sciences, Lucknow** in association with **The Institutions of Engineers, Lucknow** under the aegis of Civil Engineering Division and **Council of Science & Technology, Lucknow** on November 19-20, 2016.

It is noteworthy that this event is being organised at very appropriate time when entire world is facing the ill effect of Global Warming and its need of the hour for the institutions like SMS to move into frontier area of knowledge in the 21<sup>st</sup> Century to provide strategies that go far beyond the conventional decision making to such global energy scenario, changes in the occurrences of disaster, both natural and man-made like; earthquakes, storms, extreme weather conditions etc. Thus the deliberations on these issues will be useful for all participants from academia and industry.

I am confident that this seminar will be very useful for the students as well as faculty members and shall provide an excellent platform for the young engineers. I am also delighted to note that a souvenir will be published on this occasion.

I extend my heartiest warm good wishes to the participants and organizers for the success of the Seminar.

(A.K. Gupta)  
Chairman
