MESSAGE

I am indeed happy to learn that the School of Management Sciences (SMS), Lucknow is organizing the **All India Seminar on Sources of Planet Energy, Environmental & Disaster Science (SPEEDS-2018): Climatic Disturbances & Its Global Impact**, scheduled on **Nov. 24-25, 2018** in association with the The Institution of Engineers (I), UP State Center Lucknow and Dr. A.P.J. Abdul Kalam Technical University, Uttar Pradesh, Lucknow.

We are aware the preservation of earth and environment is highly essential for life. The facts of climate change need our urgent attention, especially in India which is a developing country. Now at this time we need to create awareness among the masses as well as we need to deal with facts of deforestation, increasing temperature, rising sea levels and sinking ground water levels besides other natural calamities which may bring troubles in due courses of time. It is needed to give a deep thought on development at the cost of nature.

I extend my best wishes on the occasion.
